## RISING AGRO FARM COMPANY BACKGROUND

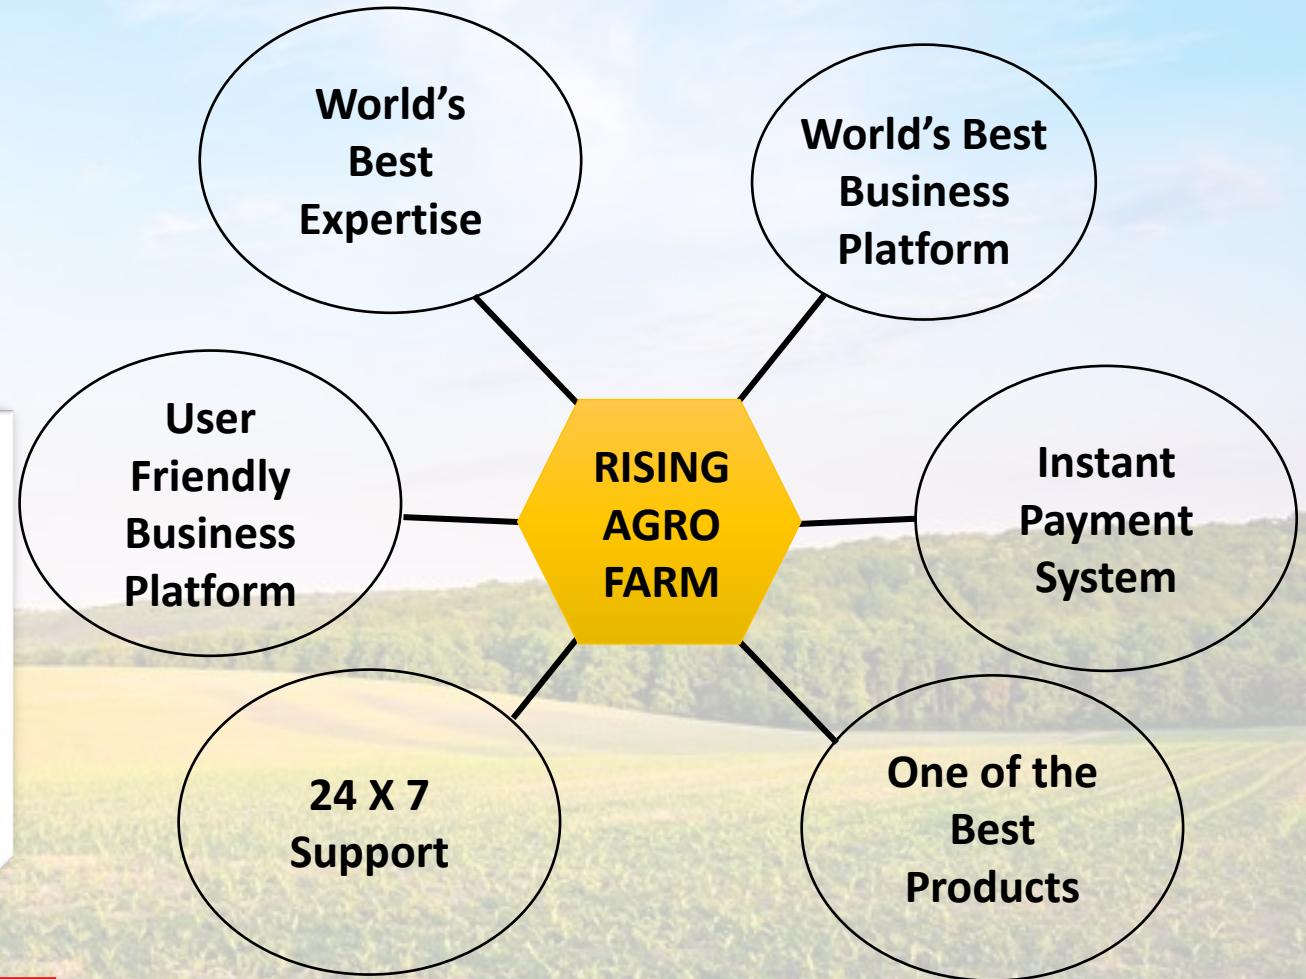

### Nursery :-

We are using Medisol / Nitrosol in nursery from media of nursery to hardening stage, seed treatment, in cutting multiplication, I root formation in stem, seeds & leaf also.

Applications – In media, like Cocopit, Soil, or perlite 3 to 5 ml / Litter of water, After sprouting/ germination weekly 2 times in root zone & foliar application.

We can use with fungicide & pesticides or any other PGR. At the time of hardening & during the transport will get healthy growth & sustainability.

At the time of transplantation,

## OUR VISION

Create fair economic and health opportunity for maximum members of the society.

## OUR MISION

To promote better everyday life among members of the society by providing great opportunity, products and systems.

### Vegetable :-

In vegetable we can use Medisol/ Nitrosol from plantation to harvesting. We can use in soil application & in spray also.

In soil application as per fertigation schedule, in drip irrigation we mix Medisol 200 ml for ½ acre with fertilizer for better uptake, balanced nutrition supply, leaching problem, increasing vermes, better growth, good quality & qty yield.

In spray, we use this Medisol with fungicide, pesticide & other PGR. As per spraying schedule we are adding 3 to 5 ml / liter of water. At every stage, like plantation, seed sowing, flowering, Fruit setting, fruit, maturity, Harvesting stage.

### Moringa:-

In moringa we use this material from seed treatment to harvesting stage.  
In moringa for seed treatment we can increase germination percentage & healthy sprouting.  
At the time of vegetative stage for good canopy, vigorous growth, good flower setting, fruit setting, Pollination & pod quality & color.  
  
This material increases chlorophyll so leaves are deep green & if we want to grow moringa for leaf purpose, will get good quality & color.  
  
It gives strength to flours & fruits in drought condition.  
Its use full in high dense plantation.  
We are using this material for drenching with fertilizer & foliar application.

## ABOUT RISING AGRO FARM

Rising Agro Farm has an extensive experience to ensure you always get the best guidance. We are capable to serve clients at every level of their organization and could act as a trusted advisor to the top management or as a hands-on-coach for front line employees. we assemble a team with the most appropriate experience and expertise. Our goal is to optimize your business relationships by tailoring our services to your individual requirements. We strive to build a relationship of trust with every client, for the long-term, 70% of our work is for clients that we have served for number of years.

### Medicinal plants cultivation:-

We are using Medisol in medicinal plants cultivation for R &D, commercial cultivation in certified organic & non certified organic cultivation & NPOP certified production.

Its safe for NPOP organic cultivation.

As per crop agronomy we are using Medisol in soil application & foliar application. We can get good bio mass, seed material, roots with qty & with good content. Our recommendation in medicinal plant cultivation for nursery, seed germination, cutting multiplication, production,
